DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is vague. The preamble of the claim is not consistent with the body of the claim. The preamble recites "a process for producing a displacement assay" but the body of the claim appears to be claiming the steps for performing an antigen/antibody binding assay. The last 2 lines of the claim appear to be detecting a color and relating the presence of the color to the presence of the labeled antibody.

Applicant's amendments to claim 1 make the claim even more vague since the body of the claim does not even reflect a displacement assay. There is nothing in the claim that displaces the labeled antibody. The body of the claim reads like a direct assay where binding of the labeled antibody to the antigen is detected.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1641

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
